September 26, 2022

Dear parents and guardians,

During the COVID-19 outbreak, the School Nurses at AUL realized many students missed check-ups and recommended childhood vaccinations during the past two years. The Centers for Disease Control and Prevention (CDC) and the American Academy of Pediatrics (AAP) recommend children catch up on routine childhood vaccinations following disruptions from COVID-19.

Making sure your child sees their doctor for well-child visits and recommended vaccines is one of the best things you can do to protect your child and community from serious diseases that are easily and quickly spread. You have the power to help keep your child healthy.

Vaccines are safe and effective in protecting your child and populations against infectious diseases. New vaccines are evaluated by a long-standing, rigorous, and transparent process through the US Food and Drug Administration and the CDC. Safety and efficacy data are reviewed before authorization and recommendation.

Besides getting caught up on the routine childhood vaccinations, the School Nurses also recommend getting the Covid-19 vaccine and the annual Flu vaccine. This is the most effective way to protect against Covid-19 and influenza and their serious complications.

Thank you for your help in this matter. Together we can keep our students healthy and ready to learn. Wishing everyone a healthy 2022-23 School Year. If you have any questions or concerns, please feel free to reach out to:

Nurse Komosinski, AUL High School Nurse, 848-203-3742 Ext 106  
Nurse Pineiro, AUL Middle School Nurse, 848-203-3742 Ext. 175
